Abstract of **FR2753986**

The invention concerns a lubricating oil for superchargers containing at least one lubricating base characterised in that it contains 0.3 to 30 wt. % of at least one polymer of the group consisting of polyolefines obtained from ethylene and propylene, and the copolymers of these olefins, said polymer being in the form of powder, granules or microsized particles in solid state dispersed in said base at room temperature.
